

The Lucky Nova

BRIDGE DECK

PASSENGER DECK

PROMENADE DECK

STEERAGE DECK

A franchised vessel of [Olia Star Cruises](#).

Exterior: The Lucky Nova sparkles like a gem against the starscape. Sleek and golden-hued, its hull is vaguely shaped like a gilded sea beast. Massive windows of its central decks reveal the opulence within. The emblem of Olia Star Cruises—a beautiful Ryloth flower and the company's initials—shines prominently at the center. Its windows reveal fleeting glimpses of luxury, promising an unforgettable adventure.

CREW

Crew: Clad in dark burgundy uniforms adorned with gold piping, the crew moves with efficiency and grace. The rank displayed on their sleeves in stripes indicates their position, while the OSC Protection Service stands out in tailored suits, polished armor plates, and meticulously maintained equipment. The aura of professionalism permeates every interaction.

- The Rodian Information Specialist, **Lieutenant Zyriah Thann**, runs the OSC Crew. A survivor of the Stormtrooper uprising on the ship, she is fiercely loyal to the Repair Crew and determined to snuff out Imperial remnants. She oversees other OSC team leaders and the Lucky Nova's engineering department.
- **Agent Jaina Wendram** manages the Lucky Nova's hotel and guest services. Beyond her luxury service experience, her background in psychology and information systems allows her to manage a thorough profile of guests and possible threats.
- **Agent Drice Tuun** runs the OSC Protection Service team. One of only two guards who remained loyal during the uprising, Drice remains easy-going despite his eye for detail and can often be found behind the bar in the casino mixing drinks.
- **Agent Sion Jin** manages the team overseeing arrivals and departures. Another survivor of the vessel's uprising, Sion is a no-nonsense, prickly war veteran.

CARGO DECK

A maze of crates, containers, and packages fills the public section of the Cargo Bays. Automated droids weave through the labyrinth, managing The Lucky Nova's everyday necessities. The lighting here is functional, casting a utilitarian glow over the machinery and storage units. The air smells of oil and distant worlds, a testament to the diversity of the barge's clientele.

STEERAGE DECK

The Lucky Nova's **Landing Bay** is its most cavernous area, allowing for many ships of different sizes to dock. Like many of the guest areas, the Landing Bay is gilded and decorated to exude an aura of wealth and opulence. Several newly built security checkpoints must be crossed before entering the engineering wing or taking the elevator up to the **Promenade Deck**.

The tight, spartan corridors beyond the Landing Bay starkly contrast with the Lucky Nova's extravagance elsewhere. The barge's heart is where most of its crew and droids live and work. The access elevator near the Lucky Nova's engines leads to the Cargo Deck and is prohibited for guests.

PROMENADE DECK

The Promenade Deck contains most of the Lucky Nova action when it is functioning as a high-end resort. The **Casino** hosts Sabacc tables, Nova Dice slot machines, and a gorgeous bar. High arches and plush seating areas invite conversation and carousing. Beyond lies the **Nebula Bar & Restaurant**, lit by a tasteful green neon sign and a grand archway that leads to several staterooms, the **Stellar Holo Theater**, **Starlight Salon**, and **Olia Paradise Holo Beach**. The ship's large working **Medbay** is located along the same corridor, for ease of access during an emergency. Most of the guest services are now run by a team of hospitality and protocol droids, managed by Jaina Endram.

Food and drink options include:

- **APPETIZERS.** *Rylothian Sunflower Soup:* A delicate blend of Rylothian sunflower petals, infused with Coruscant urban herbs and served chilled with a sprinkle of Naboo spice. *Hoth Crystal Shrimp:* Fresh shrimp from Hoth's icy waters, glazed with Corellian honey and garnished with Tatooine desert greens.
- **MAIN COURSES.** *Endorian Roast Teka:* Succulent Teka bird, slow-roasted with Endorian spices, served with Kashyyyk wild grains and forest mushrooms. *Mon Cala Sea Platter:* A selection of Mon Cala's finest sea delicacies, grilled to perfection, accompanied by Polis Massan asteroid root vegetables and a Chandrila saffron sauce.
- **DESSERTS.** *Mud Hutt Pie:* Rich chocolate layers with Nal Hutta swamp berries, topped with a whipped Dokiri woozersu cream and a dusting of Coruscant gold flakes. *Scarif Sunrise Sorbet:* A refreshing trio of tropical fruit sorbets inspired by Scarif's sunrises, garnished with Mustafar fire crystal shavings.
- **COCKTAILS.** *Nebula's Whisper:* A blend of Tatooine sun rum, Yavin 4 lime juice, and a splash of Hoth ice mint. Served with a twist of luminescent Glow Vine. *Galactic Sunset:* Corellian whiskey mixed with Naboo berry liqueur, a touch of Chandrila citrus, and finished with a shimmering sunset sugar rim.

PASSENGER DECK

Warm, ambient light washes over meticulously crafted furnishings tailored to the tastes of a discerning clientele. Each suite boasts state-of-the-art amenities, oversized windows with stellar views, and an undercurrent of privacy and exclusivity. The sound-suppressed corridors and large staterooms make the deck ideal for private conversations, meetings, and remote work.

Tranquility Spa welcomes guests with gentle, inoffensive music, and walls that glimmer with rare minerals. Beyond lie rooms offering massage, aroma therapy, deprivation tanks, droid oiling services for droids, and more. The largest area of the spa is a floating meditation chamber in zero gravity that hovers above exotic botanicals.

BRIDGE

The Bridge is an impressive technological nexus, commanding a panoramic view of the stars. Glowing consoles provide real-time data, manned by a diverse crew in dark burgundy uniforms, their rank evident in sleeve stripes. A pair of new security checkpoints block Bridge access from both ends of the elevator leading from the Passenger Deck to the Bridge
